250 PRODUCTION REPRESENTATIVE

Hayden Freeman has come onto the committee in the capacity of 250 Production representative. If the 250 riders have any suggestions or concerns, please contact Hayden. He will be arranging some training for those riders who want to increase their skills. This is most likely at 4.00pm Friday March 17, just before our King of Ruapuna meeting.

SPEAKER SYSTEM AT RUAPUNA

The Car Club have installed new speakers along the back of the pits. The next step is to install them along the pit garages. Testing will take place this weekend, and hopefully the system will be working by our next meeting on March 19.

RIDE FOREVER CANTERBURY SHOWGROUNDS SATURDAY 4 FEBRUARY 2023

Motorcycling Canterbury has a static display at this event promoting the junior riders. There will be a Kayo and other machines plus photos on display and information available to the public. If you are free on Saturday, please go and support this event.

CLUB DAY CLASSES

it has been suggested we split the 300 Supersport class into A and B categories with separate points being awarded to each. A class would be for the experienced riders; B class for the newer riders. The rider will choose which category they enter. The website online entry should be changed in time for King of Ruapuna Rd 4 meeting in March.
